

# USB (Peripheral) to Ethernet Adapter

## PS6U1UPE

### Features and Benefits

#### “Wired” Ethernet Connection

- Increase efficiency and speed with a 10/100 mbps Ethernet connection
- Provides simple & reliable integration between mobile computers and widely deployed networking technology
- Performance advantage over wireless and modem
- Preferred solution for large data transfers
- Reduced security concerns as compared to wireless connectivity options

#### Universal Form-Factor

- Connects to mobile computer via a USB “Mini-B” connector
- Adapter supports many handhelds/PDAs, independent of shape and size
- Small size is highly portable

#### Improve Workflow and Productivity

- Users can access and synchronize their data
- Access files, Local Area Networks (LANs) and the Internet
- Supports server synchronization software

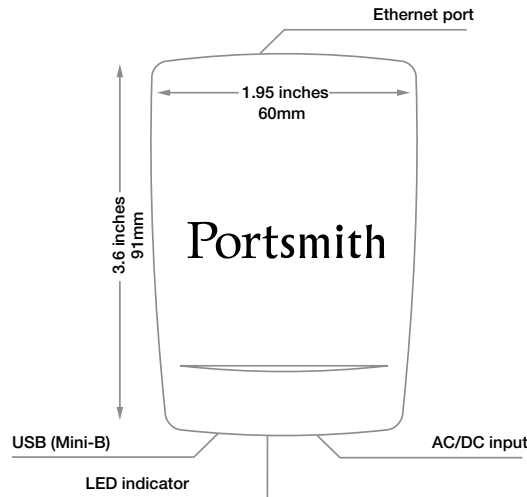

#### Built on Industry Standards

- Operates as a USB “peripheral”
- Supports many mobile computers which operate as a USB “host”
- Seamless integration with existing network infrastructure
- Compatible with DHCP or Static IP Address assignment
- Minimize support, integration and hardware requirements

# PS6U1UPE USB (Peripheral) Ethernet Adapter

## SPECIFICATIONS

- Power not required in most instances
- Adapter draws power through USB connection
- For mobile computers not providing power over USB separate power adapter wall port is needed:
  - 5 VDC, 3.0 A, 100-240 VAC
  - Universal plugs for use in USA, Canada and EU
  - PN# 190438-000LF
- Charging capability: No
- Connectors: 1 RJ45 10BASE-T Ethernet port, 1 Mini-B USB 1.1 port, 1 power port
- Indicators / LEDs: Communication Status, Ethernet Link Status, Ethernet Connection Speed
- Operating Temperature: 32°F to 104°F (0°C to 40°C)
- Dimensions: 3.6" x 1.95" x 1" (91mm x 59.5mm x 24mm)
- Weight: 2.0 oz (0.06 kg)
- Certifications: FCC Part 15 Class B, CE, RoHS Directive 2002/95/EEC

## REQUIREMENTS

- Compatible mobile computer and USB cradle (visit [www.Portsmith.com](http://www.Portsmith.com) for compatibility info)
- USB cable (varies by application)
- 10 mbps or 10/100 Ethernet connection
- If mobile computer does not provide power over USB connection, then 5V, 3.0 A power supply required (190438-000LF)

## PACKAGE CONTENTS

- (1) PS6U1UPE Ethernet adapter
- Quick Connect guide
- Warranty registration available online form at [www.Portsmith.com](http://www.Portsmith.com)

## ORDERING INFORMATION

- Portsmith USB "Peripheral" to Ethernet Adapter (PN PS6U1UPE)
- 5V, 3.0 A Power Supply (190438-000LF)  
(Note: Power Supply required for use with MC50, MC1000 and ES400)
